

**Indigenous communities** can generate BC and TK Labels, with customized text

e.g.

PROVENANCE LABEL

**Researchers/Institutions** can generate BC, TK, and CI Notices

*Indigenous communities* are notified when a **Researcher/Institution** generates a Notice

**LOCAL CONTEXTS HUB**  
Indigenous communities, researchers, and institutions have unique profiles. The Hub generates and hosts Notices and Labels, including contextual information

**LABELS** **NOTICES**

**BC** **TK**  
BC NOTICE TK NOTICE

**INCOMPLETE ATTRIBUTION** **OPEN TO COLLABORATE**

**THE APPLICATION OF NOTICES** to genetic resources or benefits arising from their access and use. Notice icons can be shown, or their persistent unique identifier reported or maintained as metadata

SPECIMEN/TISSUE/DNA COLLECTION METADATA REPOSITORY SEQUENCE DATA REPOSITORY PUBLICATIONS

**Researchers/Institutions** can apply Notices to support the recognition of Indigenous interests in genetic resources, and invite **Indigenous communities** to provide their own perspectives

**THE APPLICATION OF LABELS** to genetic resources or benefits arising from their access and use. Label icons can be shown, or their persistent unique identifier reported or maintained as metadata

SPECIMEN/TISSUE/DNA COLLECTION METADATA REPOSITORY SEQUENCE DATA REPOSITORY PUBLICATIONS

**Indigenous communities** can apply Labels to replace Notices providing information regarding the provenance of genetic resources, and communicating protocols and permissions for future access and benefit sharing
